THE WORLD OF HYTALE**

HYTALE

EDITOR'S NOTE

We created this magazine because we love Hytale and the creativity of its community. Players build incredible worlds, design amazing mods and constantly discover new ideas.

In this issue you will find outfit inspiration for your avatar, interesting mods, beginner tips, hidden secrets and creations from players. Our goal is to collect fun and creative parts of the Hytale experience in one place.

This magazine is a fan project made by players who enjoy exploring the game and sharing their discoveries with others.

We hope it inspires you to explore, build and create your own adventures.

Thank you for being part of the journey.

Hytale New Worlds

Modding Contest

Funded by Hypixel Studios and powered by CurseForge -
build something that players will remember

\$100,000 prize pool **65 winners**

3 categories

WorldGen V2

Create generated worlds using World Gen V2's visual node editor. Build a biome, region, or zone with a clear theme, strong landmarks, and great exploration from the ground.

NPCs

Bring life to Hytale. Create or update NPCs - critters, enemies, or boss fights - with behaviors players will remember. Push the asset configuration system to its limits.

Experiences

Create a new way to play Hytale - adventure maps, minigames, hard modes, or deep systems (skill trees, progression, crafting reworks). PvP and multiplayer welcome.

Decor Mods for Your World

Add personality, details and cozy decorations to your builds

These decoration mods bring more life and creativity to your world. From cute plushies to artist studio furniture and small decorative props, these mods help players design unique spaces and tell stories through their builds.

Artist's Studio Furniture Set

Mod created by:
Renlay

This mod adds a beautiful set of art-themed furniture and decorations designed for building an artist's studio.

Items include objects like:

- *Paint jars and buckets*
- *Easels and canvas piles*
- *An artist dresser*
- *A calligraphy table*

All furniture can be crafted in the Furniture Workbench, and many objects have alternate versions that can be changed using the Hammer tool.

TIP

Small decorations can make a big difference. Adding details like plushies, tools or props helps your builds feel more alive.

Lylenn's Workbench Decorations

Mod created by:
Lylenn

This mod introduces a collection of small decorative objects that can add detail to any build. All decorations are crafted in the Furniture Workbench, and most of them include color variations that can easily be changed using the Hammer tool. The mod is actively growing, with more decorations planned in future updates.

Decorative Mob Plushies

Mod created by:
Belgie

This mod adds 35+ cute mob plushies inspired by creatures from Hytale. The plushies are based on passive mob models and turned into decorative blocks.

Some plushies can play ambient mob sounds when interacted with, and all include idle animations. They can be crafted at the Furniture Workbench using linen scraps and colored cloth. Perfect for decorating houses, shops and cozy builds.

Avatar Outfit Ideas

SIMPLE OUTFIT INSPIRATION USING ONLY BASE GAME ITEMS

COZY ADVENTURER

A warm and comfortable outfit perfect for exploring forests and quiet villages. The soft colors give the character a friendly and relaxed look, great for peaceful adventures.

CASUAL EXPLORER

A simple everyday outfit for long journeys. This style looks practical and comfortable, perfect for exploring new biomes and discovering hidden places.

FLOWER WANDERER

A bright nature-inspired outfit with a peaceful and cheerful feeling. Perfect for characters who enjoy calm exploration and beautiful landscapes.

TIP

Try mixing simple clothes and armor pieces. Even small details can create a completely new character style.

DARK STREET STYLE

A bold outfit with dark colors and strong attitude. Perfect for players who like a modern and slightly mysterious character style.

RED ROGUE

A strong and confident outfit for a fearless adventurer. The red colors make the character stand out and give a powerful explorer vibe.

TECH TRAVELER

A colorful and energetic outfit with a modern explorer vibe. Great for players who want their character to look adventurous and creative.

Wardrobe Mod

Mod created by:
jackson & tazer

Wardrobe is a powerful cosmetic mod that allows creators to add customizable hairstyles, accessories, clothing and even completely new player models to the game using Asset Packs.

*Instead of adding new armor items, Wardrobe creates a full avatar customization system similar to the Hytale character editor. Players can change their appearance using the Cosmetics Mirror block or the **/wardrobe** command.*

The system supports many customization features including:

- Texture and color variants
- Different model options
- Gradient color sets
- Custom cosmetic categories and slots

Creators can also build their own cosmetics and integrate them into the menu, making Wardrobe a flexible tool for modders and servers that want deeper character customization.

Create Your Own Style

Customize your Hytale character with the Wardrobe mod

Cosmetics Mirror

Extra Cosmetics Add-On

HayHay's Mob Cosmetics (for Wardrobe API)

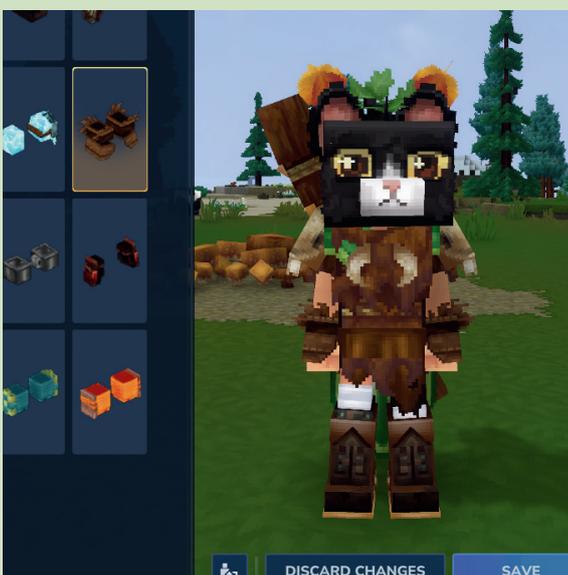

This addon expands the Wardrobe system with cosmetics inspired by creatures and characters from the Hytale world.

It adds a huge collection of items including:

- *Mob-inspired hairstyles and eyes*
- *Creature heads and masks*
- *Horns, ears and facial accessories*
- *Armor pieces, clothing and capes*
- *Backpacks, weapons and decorative items*

These cosmetics appear in the Wardrobe Mirror menu, letting players create unique avatars with styles inspired by mobs like Troks, Kweebecs, skeletons and more.

Mod created by:
HayHayBeans

TIP

Wardrobe itself does not include cosmetics. You need to install Asset Packs or addons like HayHay's Mob Cosmetics to unlock new customization options.

Explorer Guide: Underground Jungle Biome

Discover a lush underground jungle filled with dinosaurs.

Deep below the surface of the world lies a beautiful underground jungle biome. This area is very different from the environments above ground. The biome is filled with lush plants, wild landscapes and prehistoric creatures.

One of the most exciting things about this biome is the dinosaurs that live there. Exploring this area feels like stepping into a completely different world full of adventure.

If you want to find this underground jungle, follow the steps below.

EXPLORER NOTE

While exploring this underground jungle, we also discovered a lot of gold, making the area not only beautiful but also a great place to search for valuable resources.

TIP

Bring extra torches when exploring underground areas. It will make the journey much safer.

HOW TO FIND THE JUNGLE BIOME

1

Preparation

Before starting your search, make sure you bring a bucket filled with water.

2

Find Zone 4

Open your map and travel to Zone

Find the Volcano Crater

Search for the volcano crater. Pour the water into the crater and wait until the water flows all the way down to the bottom.

3

Jump Down

Once the water reaches the bottom, jump into the crater and land in the water.

4

Welcome to the Jungle

At the bottom you will discover an underground jungle biome filled with lush plants and dinosaurs.

5

The world of Hytale is full of incredible landscapes. From deep forests to mysterious mountains, every biome has its own atmosphere. Players often discover beautiful places while exploring, building or simply traveling through the world.

Exploring the WildTale Mod

WildTale is a large mod that adds over 150 different animals to the world of Hytale. With this mod installed, the environment feels much more alive as new animals appear naturally while exploring different areas of the world.

Players can encounter animals inspired by real wildlife, including elephants, giraffes, bears, birds, reptiles and many other species.

Exploring forests, mountains and open landscapes becomes much more exciting when unexpected wildlife can appear along the way.

The mod also introduces several interesting gameplay features. Most animals can be captured using a zoo capture crate, which allows players to move animals to another location if they want to create their own animal areas or collections in the world. Smaller creatures such as bugs can be caught using a crafted bug net.

Animal behavior follows the base game system. Tamed animals will only follow the player when their favorite food is held in your hand. If you are not holding food, they will walk around normally just like other animals in the game.

WildTale also includes small hidden mechanics. For example, squirrels usually drop acorns, but sometimes they can drop a peanut instead (with only a 5% chance). Peanuts can be used to tame elephants, which makes this rare drop especially useful for players who want to interact with larger animals.

The mod is still in development, so more animals and features may appear in future updates.

Mod created by:

*IAmTheLionRider, ConcordForge,
LeafProductions, Dyl0526*

Get the Mod

Over 150 new animals bring more life to the world of Hytale.

DID YOU KNOW?

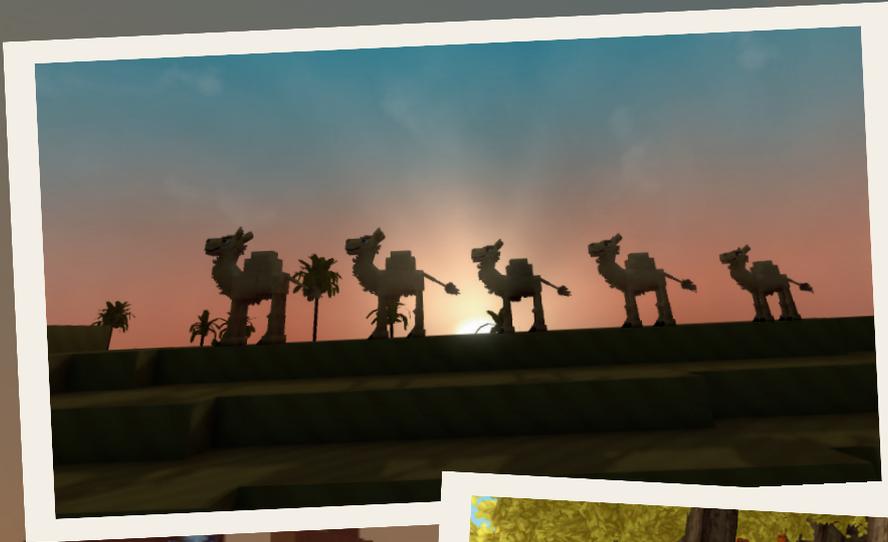

Capybaras are known as one of the calmest animals in the animal kingdom.

Capybara Companion

One of the cutest animals in the WildTale mod is the capybara. Players can interact with capybaras by feeding them lettuce. When you hold lettuce in your hand, the capybara will start following you around. This makes it possible to guide them and keep them close during your adventure. Capybaras are calm and friendly animals, making them a fun and adorable companion in the world of Hytale.

WildTale Wildlife Gallery

The Purr-fect Pet System

Adopt, train and care for your own cats in Hytale.

Alec's Cats is a mod that introduces interactive pet cats into the world of Hytale. The project originally started as a small experiment using unused cat models that already existed in the base game files. The creator added new textures such as light gray and dark gray variants along with several animations.

While the visual side of the mod is simple, the real work went into building the systems behind the cats. The developer spent hundreds of hours creating the coding that allows the animals to behave like real pets with their own needs and behaviors.

Players can tame cats, give them commands and interact with them in different ways. Cats can follow their owner, defend them, stay in one place or return to their home location.

HAPPINESS SYSTEM

Cats have their own needs.

They become happier when:

1. Their owner is nearby
2. Another cat companion is nearby
3. They have access to food and water

Mod created by:
alechilles

HOW TO TAME A CAT?

1. Find a wild cat.
2. Feed it raw fish to make it friendly.
3. Use a Cat Collar to tame and capture it.
4. Place your cat using the Soul Lantern item.

The mod also includes a full needs and happiness system. Cats feel happier when their owner is nearby, when they have access to food and water, and when they are not alone. They can automatically eat raw fish from nearby storage and drink water from nearby sources.

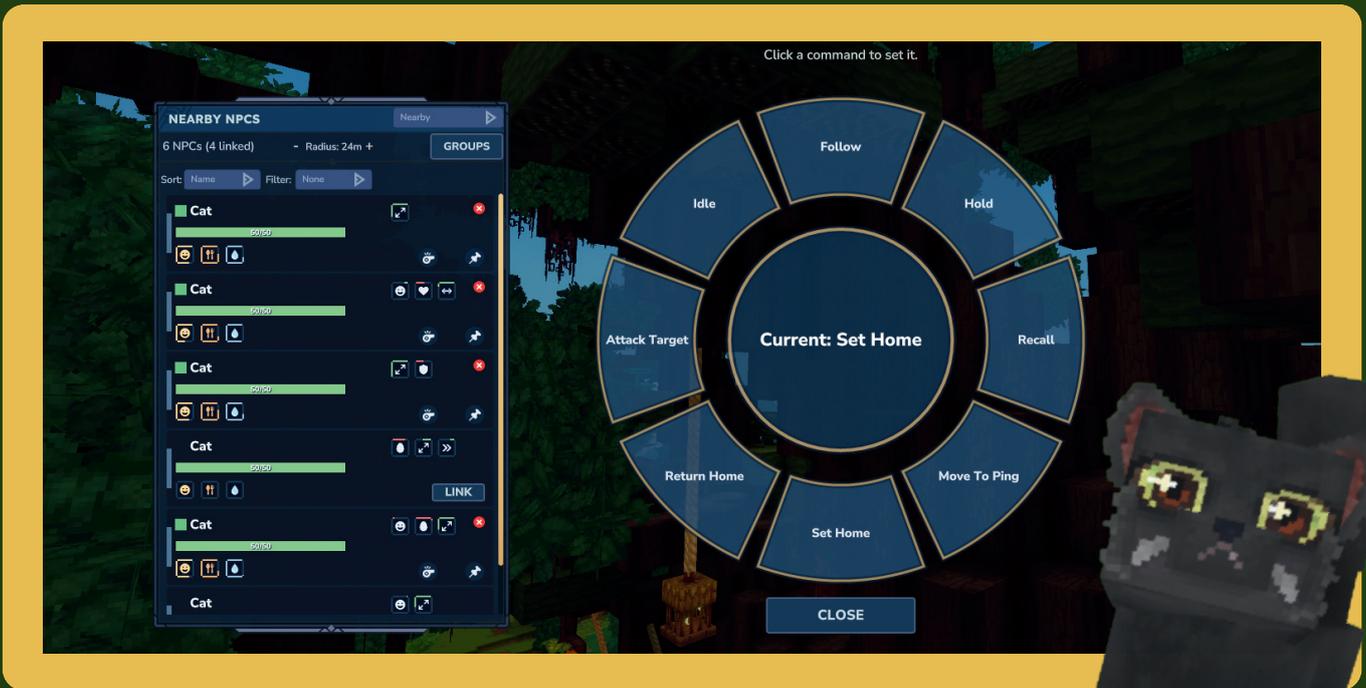

Another interesting feature is the breeding system. If two cats are happy and compatible, they can breed and produce kittens. Each cat can spawn with different traits that affect things like size, strength or other characteristics. These traits, along with fur color, can be inherited by the kittens.

DID YOU KNOW?

Alec's Cats runs on Alec's Tamework, a framework designed to help other modders create advanced NPC systems without writing complex Java code.

Cat Commands Menu

CAT COMMANDS

Cats can be controlled using simple and advanced commands.

Basic modes

- Follow
- Defend
- Stay

Advanced commands (using the Cat Treat Bag)

- Follow
- Hold
- Recall
- Move To Ping
- Set Home
- Return Home
- Attack Target

TRAITS AND BREEDING

Cats in the mod have a trait system.

- Cats can spawn with 0-4 traits
- Traits can affect size, strength, fertility and more
- Traits can be inherited from parents
- Fur color is also inherited

If two happy cats stay together, they may breed automatically.

ATTENTION ARTISTS

The creator is currently looking for artists who would like to help design new cat textures and variants.

If you are interested in contributing to the project, you can contact the developer on Discord.

Quiz

WHAT TYPE OF HYTEALE PLAYER ARE YOU?

Answer the questions and discover your adventure style

1. WHAT DO YOU DO FIRST WHEN ENTERING A NEW WORLD?

- A – Start exploring the map
- B – Collect resources and materials
- C – Look for monsters to fight
- D – Find a nice place to build

2. WHICH ACTIVITY SOUNDS THE MOST FUN?

- A – Discovering hidden places
- B – Gathering rare items
- C – Fighting powerful enemies
- D – Designing cool buildings

3. WHAT ITEM WOULD YOU ALWAYS CARRY?

- A – Map
- B – Backpack full of resources
- C – Strong weapon
- D – Building blocks

4. YOUR FAVORITE BIOME WOULD BE:

- A – A mysterious jungle
- B – A forest full of resources
- C – A dangerous volcano
- D – A peaceful valley

5. YOUR DREAM ADVENTURE WOULD BE:

- A – Discovering a secret biome
- B – Finding rare materials
- C – Defeating a powerful creature
- D – Building an amazing base

6. WHAT DO YOU USUALLY DO AT NIGHT IN THE GAME?

- A – Explore caves and new areas
- B – Gather more resources
- C – Hunt monsters
- D – Work on my base

7. WHAT SOUNDS LIKE THE BEST DISCOVERY?

- A – A hidden underground biome
- B – A cave full of valuable ores
- C – A powerful enemy to defeat
- D – A perfect place to build

8. WHAT WOULD YOUR BASE LOOK LIKE?

- A – A small camp while exploring
- B – A storage base full of materials
- C – A strong fortress
- D – A beautiful house

9. YOUR FRIENDS WOULD DESCRIBE YOU AS:

- A – Curious and adventurous
- B – Organized and resourceful
- C – Brave and strong
- D – Creative and imaginative

Many players are actually a mix of different playstyles.

Fun Fact

Results

MOSTLY A

Explorer

You love discovering new places, hidden biomes and secret areas.

MOSTLY B

Collector

You enjoy gathering resources and building up your inventory.

MOSTLY C

Warrior

You are always ready for battle and enjoy fighting dangerous creatures.

MOSTLY D

Builder

You enjoy creating houses, bases and beautiful structures.

FROM THE EDITORS

As we finish this issue of Hytale Magazine, we want to thank everyone who shares the same excitement for the world of Hytale as we do. This project started with the idea of bringing together mods, guides, screenshots and creative ideas from the community in one place.

Hytale is a game full of possibilities. From exploring new biomes and discovering hidden places to creating unique characters, builds and adventures, there is always something new to experience.

We hope this magazine inspires you to explore more, try new mods, create your own stories and share them with the community.

We would also love for you to become part of our community. Your feedback and opinions are very important to us. If you enjoyed this magazine, or if you would like to be part of a future issue, feel free to share your thoughts with us on our Discord.

Your support, ideas and creativity help motivate us to continue working on new issues and improving the magazine for the community. Thank you for reading and being part of this adventure.
